## **Back to School Info 2020-2021**

Dear Parents and Students,

We are looking forward to school starting next Wednesday, August 12th! While we are starting the school year with virtual learning, we very much look forward to seeing students in-person in the future.

Chromebook pickup will take place on Monday, August 10th from 8:00am - 6:00pm and Tuesday, August 11th from 8:00am - 3:00pm. Please pull up to the cafeteria doors (door #15) in the back of the building and a staff member will come to your vehicle to assist. You may come ANY time during those hours. If you have not returned a Chromebook from last year, you will not receive a new Chromebook until the original Chromebook is returned. We will also take any remaining textbooks or library books that students still have in their possession from last school year.

Please click on the following hyperlink to see [Student Expectations](#) for virtual learning. While virtual learning to start the school year will model our previous eLearning in some ways, it will also be enhanced in many other ways. You can expect your child to see their teachers often through recorded videos, Google Meets, etc. Teachers will be in their classrooms and available throughout the school day to answer questions and offer assistance. You may call the school, e-mail, message through Canvas, or set up a Google Meet for face-to-face assistance ANY time during school hours.

Our bus drivers and staff are going to deliver school books and materials to your door on Friday, August 14th during the day. Please be sure that your demographic information (i.e. address and phone numbers) is updated in Harmony. If you have not completed the registration process yet, please do so as soon as possible so that materials are delivered to the correct address. If you do NOT reside within the school district (i.e. an open enrollment student), your materials will be here at the school and ready for you to pick up on Friday, August 14th between 9:00am-2:00pm. You may also contact the office to make alternate arrangements to pick up your child's materials.

Our food service department will be contacting you in the very near future regarding meals for students during the school week. More information to come.

We sincerely appreciate your patience and support as we navigate through these ever evolving circumstances. Please don't hesitate to contact the school office with any questions. You may also visit the virtual learning page on our website (<https://www.scentral.k12.in.us/elearning>) for additional information.
