* We are given three (3) eLearning days a school year, per Indiana Code.

** If we use three (3) eLearning days and three (3) virtual learning days, we will use the make-up days that are built into the 2024-2025 school calendar: January 20th, February 14th, and May 2nd. On these days, students will come to school as normal. These make-up days will be announced as needed.

*** **Asynchronous Learning** offers students the flexibility to complete assignments in a self-paced manner. Lessons may include prerecorded videos made by the teacher or online materials used in class. Lessons and assignments are a continuation of a normal school day.

**** **Synchronous Learning** allows students to engage in class at the same time as their peers via live video conferencing (i.e. Google Meet). Lessons will be instructed over live video and assignments are given based on the material discussed during the live lesson. Lessons and assignments are a continuation of a normal school day.
