

Dyslexia Report for 2022-2023
South Central Community School Corporation
#4940

Dyslexia Program

During the 2022-2023 school year, the South Central Community School Corporation used the research-based program Orton Gillingham Interventions to provide instruction to all students in need of intervention. The program was used in small groups to address any student with a deficit in the areas identified as exhibiting the characteristics of dyslexia.

Number of Students Who Received Dyslexia Intervention

During the 2022-2023 school year, 14 students attending the South Central Community School Corporation received dyslexia intervention services.

Total Number of Students Identified as Exhibiting the Characteristics of Dyslexia

During the 2022-2023 school year, the NWEA MAP Reading Fluency was administered to all K-2 students in the South Central Community School Corporation. Of the students who took the screener, 35 students were flagged; 14 students received interventions after taking the Level 1 Screener, the Amira Reading Assessment; and 0 students were officially diagnosed with characteristics of dyslexia.

Data submitted in response to IC 20-35.5
